

CTO/Chief Software Architect Job with Finnest

Social Enterprise Greenhouse is helping to find qualified applicants for Finnest. Please see the below for more information, or email talent@segreenhouse.org. Learn more about Finnest at <http://www.finnest.co>

Mission: Finnest aims to financially prepare youth by creating a financial environment where all people from all backgrounds take full advantage of wholesome financial tools and learn sound financial behavior at an early stage.

About: Created by two entrepreneurs, Finnest is a tool that lets youth engage in financial education. With Finnest, youth become accustomed to the right behaviors, like saving, and will be ahead of the game when it comes to establishing essential financial products, like long-term investing accounts.

Description of Job: A team of two recent Brown University graduates is preparing to start a mobile banking platform for youth aimed at revolutionizing the way children grow up with money. They seek a highly motivated, entrepreneurial CTO/chief software architect to join their team to lead the technology side. This is a great opportunity to join an ambitious start-up, design technology from the ground up, become part of the management team, and to obtain a significant amount of equity as founding member.

Hours per week: Negotiable

Qualifications:

- Entrepreneurial passion
- BS or MS in Computer Science or equivalent
- At least 2 years of experience in software development
- Extensive Experience of web and mobile application development
- Experience with managing a software development team
- Experience with development in finance / investment industry is a plus
- Extensive experiences in Database, NodeJS or Python, ReactJS preferred react-native and or iOS.

Compensation: Equity pay
